i-Design

New furniture concepts.

*Italian taste, global service.
The evolution of “designing”,
in harmony with the emotions, the prestige
and style of unique and dynamic spaces.
When a design becomes a pure creation,
i-Design: unforgettable solutions.*

An innate vocation for quality.

A constant quest, a view looking forward.

Thanks to a priceless background of professional tradition, passion for the craft and an innovative wit, i-Design combines efficiency and attention to detail and encourages face-to-face meeting with main international and emerging markets.

The vision and production of i-Design meet the needs of both its clients as far as the different types of spaces and settings: private residences, professional and commercial, hotels, communities, hospitals, care homes, sports and reception facilities.

i-Design / **Mission**

Creating spaces for feeling.

Style and functionality: from living to work, to meeting places.

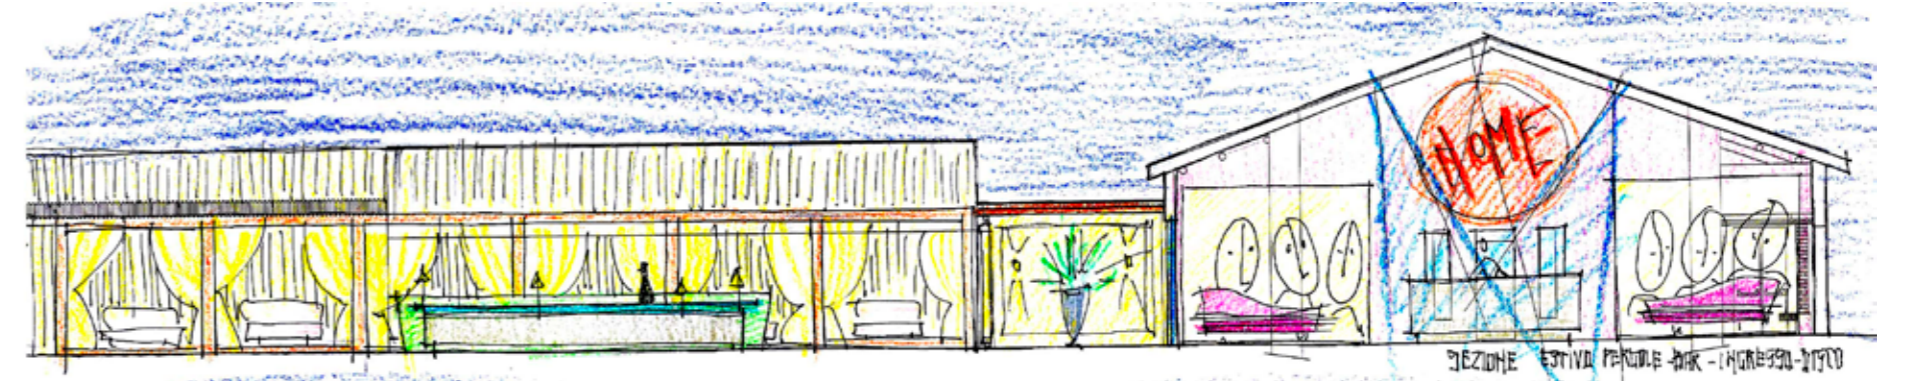

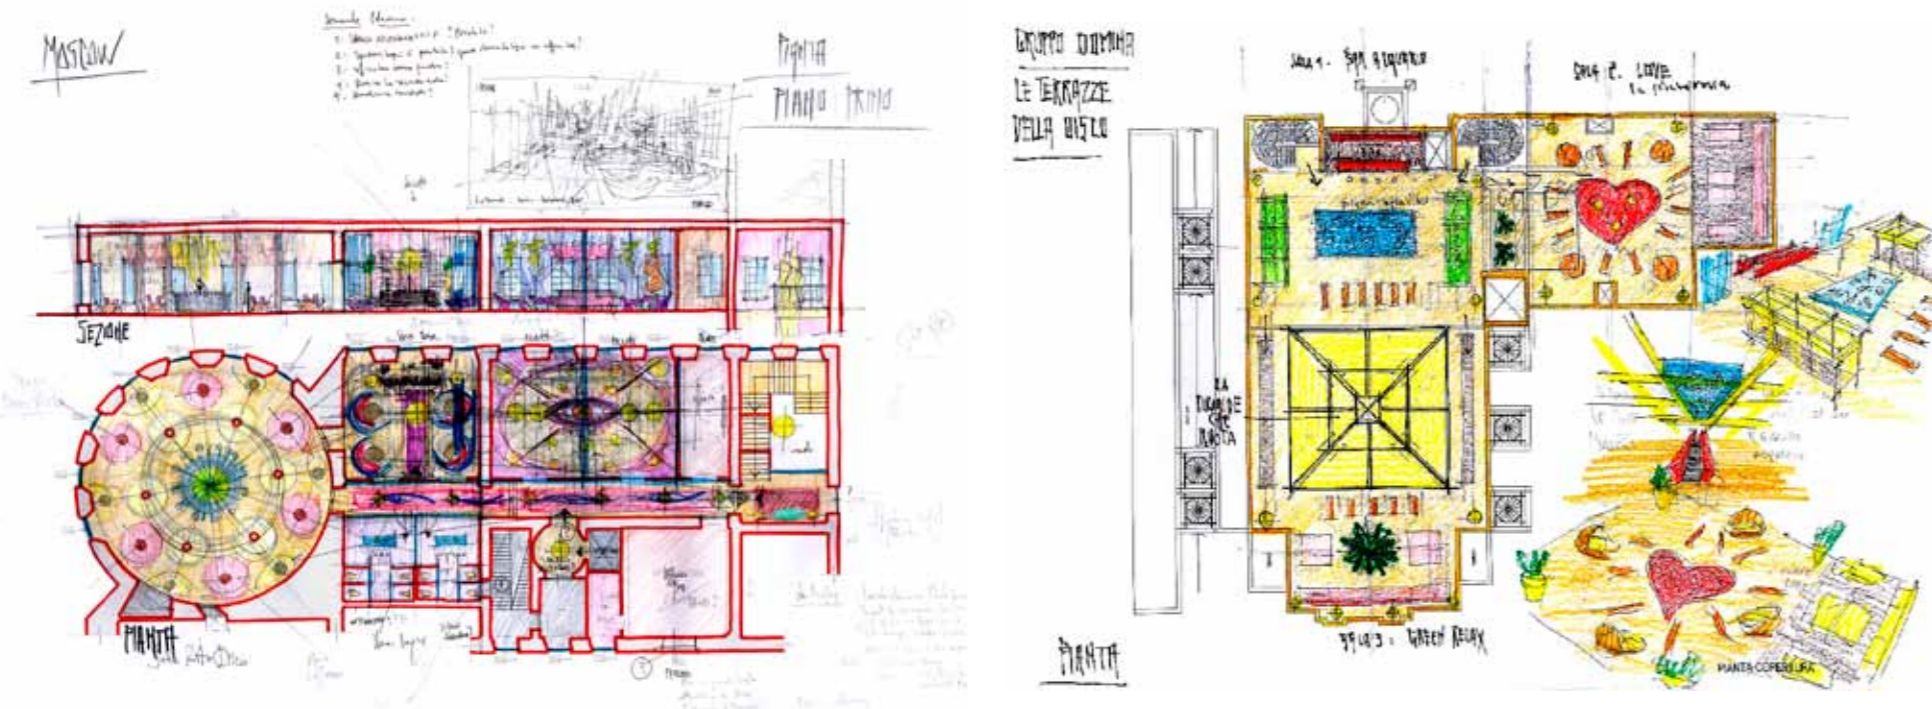

The aim of i-Design is to realize dreams, not just setting up places: we follow every creative, design and production step as if conceiving and tailor-making the most exquisite clothing; interpreting contemporary design trends; translating them according to spaces features, thanks to the most functional solutions and the most advanced materials; then offering a comprehensive consulting for a turnkey service.

From the raw material to the design.

From the design to the final item.

Our expert professional staff – devoted to the conception, planning and supervision of each product – qualifies i-Design as a new quality brand for besides researching or creating furniture, also for a highly specialised design partner working alongside architectural firms and operators coming from various industrial sectors.
